## Agenda of B.O.S Meeting:

1. To discuss and recommend the Syllabi, Model Question Papers and Guidelines to be followed by question paper setters in Mathematics for $1^{\text {st }}$ Semester as per the guidelines and instructions under CBCS prescribed by Krishna University from the Academic Year 2019-20.
2. To discuss and recommend the Syllabi, Model Question Papers and Guidelines to be followed by question paper setters in Mathematics for $3^{\text {rd }}$ Semester as per the guidelines and instructions under CBCS prescribed by Krishna University from the Academic Year 2019-20.
3. To discuss and recommend the Syllabi, Model Question Papers and Guidelines to be followed by question paper setters in Mathematics for $5^{\text {th }}$ Semester as per the guidelines and instructions under CBCS prescribed by Krishna University from the Academic Year 2019-20.
4. Any other matter.

## Resolutions.

1. Discussed and recommended that no changes are required in syllabi, Model Question Papers and Guidelines for question paper setters in Mathematics for the $1^{\text {st }}$ Semester for the Academic year 2019-20.
2. Discussed and recommended that changes are required in Syllabic. Model Question Papers and Guidelines to be followed by the question paper setters in Mathematics for $3^{\text {rd }}$ Semesters from the Academic year 2019-20. The maximum marks for IA is 30 and SE is 70. Each IA written examination is of 1 Hr .30 min duration for 20 marks. The tests will be conducted centrally. The average of two such IA is calculated for 20 marks. 5 marks will be allotted basing on Assignment and 5 marks are allotted for attendance. There is no minimum passing for IA and there is no provision for improvement in IA. Even though the candidate is absent for two IA exams/obtain zero marks the external marks are considered (if he/ she gets 40 out of 70 ) and the result shall be declared as 'PASS' from the Academic year 2019-20.
3. Discussed and recommended that no changes are required in Syllabi, Model Question Papers and Guidelines to be followed by the question paper setters in Mathematics for $5^{\text {th }}$ Semester and followed General Elective, Cluster Electives from the Academic year 2017-18 and followed same pattern for the Academic Year 2019-20.
4. Discussed and recommended for organizing certificate course online/offline, seminars, Guest lecturers, Online Examinations and Workshops to upgrade the knowledge of students for Competitive Examinations for the approval of the Academic Council.
