To figure out how to speak like native English speakers.

Notes on lecture

The way a person makes these speech sounds and articulates words is shaped, literally; by the way he or she uses her mouth. Therefore, you can improve your ability to speak English like a native speaker by **studying mouth movements**. Speaking is a skill like swimming, driving or riding a bike. The only way one can be proficient in speaking English is to actually keep talking! It is said that the best method to become a good writer is to keep writing. Similarly, the ideal way to speak English or speak like a native speaker is to keep speaking with the correct accent and grammar.

Outcome

- Students were able to understand and can use idiomatic phrases and phrasal verbs;
- Students are capable of spontaneous discussions in English-speaking contexts;
- Can use English tenses and sentence structures effortlessly and in the correct context;
- Can understand the subtle differences in tone and pitch.
