Objectives

This Webinar is a concept that helps the students in gaining additional knowledge. This is useful to the students in order to enhance their knowledge

Notes on Webinar :The **history of medicine** is both a study of medicine throughout history as well as a multidisciplinary field of study that seeks to explore and understand medical practices, both past and present, throughout human societies.^[1]

The history of medicine is the study and documentation of the evolution of medical treatments, practices, and knowledge over time. Medical historians often draw from other humanities fields of study including economics, health sciences, sociology, and politics to better understand the institutions, practices, people, professions, and social systems that have shaped medicine.

Outcome

The students gained knowledge and awareness on Management through this webinar and this is useful to them to attained various jobs in various fields in the Economy and improve their slandered of livings in the society.
