Report:

Library is considered as an important part of the college which is the major learning resource for the students and staff. As per the changing time, role of library is also being changed. Advanced technology has been utilized by the library to provide library services. The main aim of library is to avail the various reading material and learning resources to the students and work for the amusement and imbibe values in the readers by reading various autobiographies of great leaders. Students get inspirations and life-force for their future life by reading.

Services are able to fulfill the changing requirements and demands of the users. Such innovative services has no geographical limits, any one even from a different country can also avail these services without any restrictions, as in case of traditional library services.

Conclusion

Access to various resources: Innovative library services frequently provide access to resources other than standard books, such as e-books, electronic databases, multimedia materials, and digital archives
