Programme Name: Sankranti Sambaralu

Date: 11.01.2021

Organized by: Department of Telugu

Brief Report:

Sankranti also called ‘Makar Sankranti’ is a festival celebrating the beginning of the harvesting season in India. It is celebrated almost all over the country, especially in Tamil Nadu, Andhra Pradesh, Karnataka, and Maharashtra. In Andhra Pradesh, the Makara Sankranti is celebrated for three days. During this time, the cultural supremacy of the state comes to the forefront as every place in Andhra Pradesh reflects the festive spirit.

Why is Makar Sankranti Celebrated?

Makar Sankranti kite festival is dedicated to Lord Sun. This day is also referred to as a specific solar day as per the Hindu Calendar. On this day, the sun enters Capricorn, the zodiac sign, also called Makar. This marks the end of winter season and the beginning of longer days. This is also the start of Magh month. To compensate for the difference that occurs due to the revolution around the sun, every 80 years the day of Sankranti is delayed by one day.
